Dear Supporters

On behalf of the Italian Botanic Society, we are delighted to announce that EUROGARD10, the 10th European Botanic Gardens Congress - *Botanic Gardens in the UN Decade of Ecosystem Restoration* - will be hosted at the Botanic Garden of Rome from the 22nd to the 26th of September, 2025.

Like the distinguished historical legacy of Rome, European Botanic Gardens are deeply rooted in a long-standing tradition of knowledge and scientific investigation. This rich heritage uniquely positions botanic gardens to address pressing contemporary environmental challenges, such as the ecological restoration of degraded ecosystems. The theme of ecological restoration reflects a vital expansion of the traditional roles of botanic gardens, encompassing plant collection and biodiversity conservation, taxonomy and plant classification, botanical research, horticulture, garden management, public engagement, and scientific dissemination. Altogether, these activities aim to foster a sustainable and thriving world, emphasizing the importance of collaboration and partnerships.

The Scientific Committee and the Organizing Committee are fully committed to delivering a stimulating conference that ensures broad participation. Featuring a multidisciplinary scientific program, speakers of international prestige, and a well-rounded social program, EUROGARD10 aims to attract 250–300 participants and provide an enriching experience for all attendees.

Key themes of the congress include:

- **Plant Conservation and Ecological Restoration**
- **Policies and Standards** (including the new Global Biodiversity Framework and Global Strategy for Plant Conservation actions)
- **Networking, Society, Public Engagement and Education**
- **Science, Sustainability and New Technologies**

With this vision, we warmly invite your organization to support and participate in the success of this event as a sponsor or exhibitor. Please find the sponsorship opportunities outlined below.
